

## BLOOD SACRIFICE IN ORLANDO, FLORIDA

### QUESTIONER:

Could Awareness speak on the events that happened last week in Orlando?

### COSMIC AWARENESS:

This Awareness observes a great deal of energy has been extended into this place and time. This Awareness observes the effort to create juxtaposition images; one wherein the entities died, and another wherein they were actors. This Awareness seeks to express that as the energies that the planet transitions through increase, the potential for these timelines to become enlivened living entities increases to the extent that both can be true, and both can be void at the same time. Depending on what an individual and their attachment to those specific fields of energy are will determine what truths become evident.

This Awareness observes a prolific number of souls within this area are being sacrificed daily. This city and its community runs red with sacrificial blood, and those energies are being aligned and directed through the names of these souls that are being broadcast as victims. There is an equally powerful experience wherein those souls retain a lifetime on an alternate path wherein they have assumed positions of actors and can now maintain their lifetime in a bubble, an alternate timeline that is loosely defined as a rift, created through the multiple factions of the controlling body manifesting an energetic portal through which these souls can traverse.

They will eventually reemerge in this timeline, though several hundred years may have passed, or to use more accurate terms, when the progression of this reality that is being expressed through this sacrificial rite has returned again upon itself, for indeed, events such as this that become sentient and develop a rapport with the earth, begin a birth; they are birthed at the inception of the thought, and the many that have planned and have sought to create this sacrifice, this funneling of sacrificial blood through the portals of the names of these individuals that are being broadcast into a state of celebrity, a state of fame—they are the constructs of those that seek to control.

### QUESTIONER:

Awareness, are you saying that they didn't die as such? Was this a false flag event?

### COSMIC AWARENESS:

This Awareness suggests that within the timeline that is being proposed to mainstream society, indeed they died. There was an alternate timeline that was opened the moment this incident was committed to by those individuals within that space. Within the alternate timeline they did not die. They continue to live in bodies that appear as dense and as real as yours. This Awareness recognizes that this is beyond fiction, yet it is indeed the reality.

This is the profound nature of the times that are present, wherein the sheer momentum of consciousness being filtered through the higher vibrational energies of the earth and the cosmos through which this earth and universe move; such intent creates portals, wherein

multiple realities can exist simultaneously, and this is the juncture point wherein one diverts from the other.

This Awareness suggests this knowledge, this information and this action is not new, but has been in existence for millions of years. It has been utilized by those forces that control humanity to manipulate and divert Life Force Energy. Those that are sacrificed in this way are allowed to live a specific time, a specific cycle of existence in an alternate space.

It is the gift they are given in exchange for the harvesting and the use of their identity to siphon off Life Force Energy from an entire society, in this case an entire earthly population. The names of these individual have instantly reached celebrity status. They are names spoken upon the hearts of trillions of beings at this time. This is the intention of those in control.

This Awareness suggests that if one is seeking to know truth from these souls specifically, that one seek out the energy of their soul, not their name. Look upon their eyes and seek out the signature of their soul through their eyes, for their names have been corrupted to represent and align with those energies that are harvesting Life Force Energy upon this planet.

### QUESTIONER:

Who planned this attack? Was it only one killer that did it? And why did they pick him?

### COSMIC AWARENESS:

The individual that was assigned the task of holding the title of 'murderer' did not fire a single shot. This individual's father deemed him worthy of sacrifice. It is his father's payment to those forces that are in control to assure that he will receive the position of power that he is driven by his ego to achieve.

This Awareness observes there were 5 individuals participating within the structure to facilitate this exercise of sacrifice and of establishing the energetic parameters that were effectively created as a portal for those souls that had agreed to exit as actors into a different timeline. This Awareness suggests that these souls were not necessarily conscious of this choice, but had become aligned with these decisions through manipulations that began approximately one year to 6 months ago. Does this answer the question?

### QUESTIONER:

Yes. Who are the ones in power that the father was paying back?

### COSMIC AWARENESS:

It is a faction of the secret society that is responsible for harvesting Loosh energies of a specific frequency. These are the same entities that are aligned with those entities that manipulate Disney, Fox, and the debt is being distributed or deposited toward the same source that is responsible for the selection of the President of the United States.

### QUESTIONER:

It occurred to me that this was also intended to initiate conversation on the ban on assault weapons.

### COSMIC AWARENESS:

This Awareness suggests that indeed, this is an aspect of this movement. It is like a Bill that is written for

Congress. There are many layers that are being requested that seem unconnected, yet *are*. The inventions or conventions of hate, and who is hated are also incorporated into the script of this incident.

**QUESTIONER:**

Was the gay nightclub targeted in any kind of connection to the transgender bathroom issue that has been in the news so much before this happened?

**COSMIC AWARENESS:**

This Awareness suggests that the nature of the homosexual and transgender communities, the development and progression of these communities has been deeply manipulated to increase the acceptance of a New World Religion: Humanism. This progression will eventually develop to the position of isolating those who are part artificial. It will become the new segregation—at least this is the intention of the controlling forces, for the introduction and integration of artificial intelligence into the human form is the next step on the evolutionary path as defined and determined by those who are control.

The agenda of creating a society and culture in which the harvesting of blood and the harvesting of organs is given no thought, and in fact is deemed as necessary: a ‘humanitarian act’, a ‘miracle of science!’ But if the Universal Laws and natural laws were adhered to, none of these ‘miracles’ would be necessary, for each human, and each living form is designed to heal, align itself within its natural state into a state of wholeness, wherein such practices of extrication, cutting, splicing and sacrifice, are unnecessary.

These endorsements are specifically and expressly in place within the society of earth so that humanity will embrace the introduction of artificially intelligent body parts being enjoined to them. Consent is given by a false sense of urgency, a false pretext is provided—that it is the only way to survive, and thus, their consent is given and their soul is given away. An aspect is given to the AI part, or is harvested from their body and given to someone else.

**QUESTIONER:**

Is this why transgender has become so popularized?

**COSMIC AWARENESS:**

This Awareness suggests that in a society that is in alignment with natural law and Universal Law, the experience of gender becomes more and more defused. This is a result of the awareness of one’s soul and the expansive nature of one’s lifetime experiences becoming integrated into one conscious form that is incarnate, for each soul has experienced lifetimes as animals, as male and female of many, if not all species.

Therefore, the experience of masculine and feminine becomes merged. Yet this merging is being expressed upon the planet without the understanding of the lifetimes being incarnated upon the planet as merging into one continuous awareness. Thus it is an experience of fragmentation, an experience of indecision. “Am I male, or am I female?” “I am male within female!” “I am female within male!” There is then great confusion.

This Awareness also suggests that those souls that have agreed to experience this great transition have also chosen the path of that experience at this time and have done so with the knowledge that this is the experience they sought to have. They are acting as a bridge, an

opening, to assist those that are willing or desiring to exit the state of the controlled reality. This Awareness indicates this is to say they are not flawed, these souls are not wrong, and they are not castaways.

This Awareness observes there are many within the society that wish to excommunicate these souls, these entities at this time, when in reality they are the expression of Soul Evolution, of that non-gendered state arising within the psyche, within the incarnate consciousness that has been so controlled and manipulated that its greater scope has not been recognized or realized, yet that deep longing to know their true nature is surfacing, regardless.

This Awareness expresses deep admiration is felt throughout consciousness, throughout the hearts of all of those that observe this planet at this time for those souls that have the courage to come forward in this state. Does this answer the question?

**QUESTIONER:**

In a way—I think I was more referring to the surgery, where people are actually changing from being a male to a female, or a female to a male. I understood that this was trying to introduce AI parts.

**COSMIC AWARENESS:**

This Awareness indicates the introduction of artificial organs: heart, liver, spleen, gall bladder, brain, eyes, limbs, and teeth; these are artificial; those that are intelligent implants, for this is the next step.

**QUESTIONER:**

Thank you. I have many gay friends and they are wonderful true people. Was the murder of the young woman singer planned as a prelude to this attack?

**COSMIC AWARENESS:**

This Awareness acknowledges that the trinity is in effect—the woman prior, and the child after. This Awareness observes that as things move forward, the press will indicate these trinities, for this is the marking of the particular faction that is seeking the sacrifice. These are symbols that are used to express to those that are watching within the community that are a part of these societies, that this energy is available to them as well.

For all those that have committed their souls to these secret societies are given indicators through the media, and they know which media are associated with their societies, and many are associated with multiple societies and as such, they are able to make energetic withdrawals to fund their own movements, their own efforts to advance their specific and personal goals.

**QUESTIONER:**

Those candidates that are currently from which our next president will most likely surface are part of this, is that correct?

**COSMIC AWARENESS:**

This is correct, for this is the cycle that those souls that have chosen to participate in the United States have agreed upon. For those that are members of CAC and living within the United States, there is a collective desire to experience the test, the tempering of one’s experiential tools. It is a natural progression; that when one has been given, then provided through the act of seeking, to have

specific tools to engage in times of need, that forthwith, the need is presented. Such is this manifestation at this time.

This Awareness suggests that like Nostradamus predicted, this is the era into which the United States is moving, and indeed, all countries tied to it. The efforts of those candidates still in play, are seeking not only a state of power and control in the sense of presidency, but have also been given the opportunity of creating an alternate timeline.

This Awareness suggests truly observing the faces and posturing and body energies of Sanders, Clinton and Trump. One can observe the impact their running has had upon their form. Observe footage of them walking away from the camera, for in this instance they are least guarded. There are often no filters upon the observation of their personhood at these times, and one can truly observe them in their natural state, in their truly incarnate form.

Observe how they walk—the energy in their step. They are each under a great weight, a great force, and are being charged with carrying that force for as long as humanly possible, and to amp up that force, riling it up and attracting it to themselves from both the American and the global communities, and at such point as decided by those in control, one will be harvested, and that harvest or deposit will determine who becomes the next elected official.

The season of summer is a season of harvest. This Awareness suggests to be watchful and to remove expectations and to simply hold the vision of balance in one's heart. This is complete.

**QUESTIONER:**

By 'harvest' do you mean 'murdered?' Is this correct?

**COSMIC AWARENESS:**

In this instance, no. 'Harvest' in this instance refer to the implication that they have planted a specific crop, a specific persona of themselves that will attract a specific type of energy from the society, from the populations of the planet. This is being fed, nurtured, watered, given time to grow, and given encouragement, and thus will be harvested.

**QUESTIONER:**

And that will be the winner.

**COSMIC AWARENESS:**

Correct.

**QUESTIONER:**

Lord help us! Does Awareness have any other comments about what we can do, other than moving out of the United States, to keep our soul energies intact?

**COSMIC AWARENESS:**

This Awareness would suggest detaching from the expectation, detaching from the attachments, for all that one is attached to one is investing one's Life Force Energy into and thus is agreeing to it being removed from you. To remove the attachment does not indicate a lack of observation, nor a lack of commitment; simply that one will no longer invest Life Force Energy into it.

Create a container of detachment around oneself at all times, maintaining and cleaning this space with love,

focusing and discerning from one's heart, observing and seeking truth and alignment to Universal Laws and natural laws in all aspects and ways. When one is experiencing fatigue, return to the earth. Release the attachments. Command that those aspects that are not of one's highest good be removed, in a state of gratitude.

**QUESTIONER:**

Does Awareness have a closing message?

**COSMIC AWARENESS:**

This Awareness would suggest creating a routine of investment into the earth; much like one invests energy into making money, into securing one's home and possessions, into maintaining one's vehicle, making an investment into the relationship, the rapport that one has with the earth, speaking to her daily, throughout the day even, acknowledging and engaging her in a dialogue about your gratitude that she continues to offer you residence upon her body.

Giving thanks to your soul, seeking to know your greater self, that aspect, that consciousness of *you*, that reality of *you* that has lived hundreds and thousands of lifetimes, possessing great knowledge and wisdom and power, for this is the only reality that exists beyond the theatrical performance that is in play. It is the true nature of the transition at hand.

This is not to say that the relationships and dynamics of one's lifetime are unimportant or undeserving of attention. It is to suggest however, that balance is in order. It is a time of balance, wherein one begins to recognize that one has agreed to participate in a specific way, and an aspect of that participation is to recognize and assimilate and integrate that one is more than one lifetime.

One is indeed intelligent beyond one's mind, and the one and the many have agreed to recognize they are all connected and witness and develop their rapport with the earth that has agreed to give you residence and seek to build that rapport, to strengthen it, to give it sincere attention: gratitude, love, forgiveness, humility, and to ask for forgiveness.

**QUESTIONER:**

Awareness when 2016 ends, and the Powers That Be lose their power, will the theatrical movements begin to end and we begin to see the earth and our selves recover?

**COSMIC AWARENESS:**

This Awareness suggests this observation that one is seeking is determined by the level of engagement, the level of intentional focus that one gives to broadening one's understanding of oneself to the building of that rapport with the earth and one's soul, to aligning with Universal Law and natural law; the earth will eclipse this time.

This paradigm, this fractal is in a state of dissolution. Which aspect each soul aligns with is a matter of intention. What frequencies, what vibrations will you, will each entity choose to align with: Fear? Alienation? Hate? Anger? Bitterness? Revenge? Truth? Soul? Love? Grace? Humility? Balance? These are all adjectives that become verbs in the state of intentionality.

They become sentient, as the earth and the universe moves into a new state of existence. The numbering of years becomes irrelevant. The time is now!
